At approximately 1035 hours on 23-3-43, Pte TOULMIN disappeared whilst in the water off PULAU BUKOM and is presumed to have been drowned. 2. The evidence points to the fact that Pte TOULMIN, whilst working on the port side of the barge, was pushed by a Japanese Gunso, and fell from the barge into the water. He was seen in the water, holding on to a floating drum in no apparent difficulties. He was carried along the side of the barge to the stern, round it to the starboard side of the launch "Hannah", where he let go the drum and sank. There is no evidence to show why he relinquished his hold of the drum. Every effort was then made by A.I.F. and Japanese personnel to find Pte. TOULMIN. CONCURRENCE: Comd. A.I.F. Malaya, concurs with the Finding of the Court, 7-5-43.	23-3-43	PULAU BUKOM SINGAPORE	Court of Inquiry Proceedings.	[Signature]

Medium Description: Defence service records set out the essentials of a person's service in the forces and were used to administer the movements and pay of their personnel. They were not intended to be an everyday account of events in a service person's career. However, they do commonly contain biographical information supplied on enlistment, as well as important details on a person's service. Although most records contain the same basic elements, they do vary in the amount of information they contain.
